

## Corrigendum

Wu Q, Chu M. Self-illuminating quantum dots for highly sensitive in vivo real-time luminescent mapping of sentinel lymph nodes. *Int J Nanomedicine*. 2012;7:3433–3443.

The following sentence on page 3433 was incorrect in the published paper:

“Here, we report on the first use of self-illuminating QDs for mouse axillary SLN mapping by bioluminescence resonance energy transfer, which was found to overcome these limitations.”

The correct sentence should read:

“Here, we report on the use of self-illuminating 3-mercaptopropionic acid-capped CdTe/CdS QDs for mouse axillary SLN mapping by bioluminescence resonance energy transfer, which was found to overcome these limitations.”

### Clinical Ophthalmology

Dovepress

#### Publish your work in this journal

Clinical Ophthalmology is an international, peer-reviewed journal covering all subspecialties within ophthalmology. Key topics include: Optometry; Visual science; Pharmacology and drug therapy in eye diseases; Basic Sciences; Primary and Secondary eye care; Patient Safety and Quality of Care Improvements. This journal is indexed on

Submit your manuscript here: <http://www.dovepress.com/clinical-ophthalmology-journal>

PubMed Central and CAS, and is the official journal of The Society of Clinical Ophthalmology (SCO). The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use.
