

The use of metformin is associated with decreased lumbar radiculopathy pain [Erratum]

Taylor A, Westveld AH, Szkudlinska M, et al. *J Pain Res.* 2013;6:755–763.

The notes section for Table 2 should read:

Notes: Sections 1 and 2 are adapted from the short-form McGill pain questionnaire.¹⁹ Patients were asked to identify their pain with the provided scale. Melzack R. The short-form McGill Pain Questionnaire. *Pain.* 1987;30(2):191–197. The figure has been reproduced with permission of the International Association for the Study of Pain® (IASP). The figure may not be reproduced for any other purpose without permission.

Publish your work in this journal

The Journal of Pain Research is an international, peer-reviewed, open access, online journal that welcomes laboratory and clinical findings in the fields of pain research and the prevention and management of pain. Original research, reviews, symposium reports, hypothesis formation and commentaries are all considered for publication.

Submit your manuscript here: <http://www.dovepress.com/journal-of-pain-research-journal>

The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
