

## Instrument Referral Criteria for PlusoptiX, SPOT and 2WIN Targeting 2021 AAPOS Guidelines [Corrigendum]

Arnold R, Silbert D, Modjesky H. *Clin Ophthalmol.* 2022;16:489–505.

The authors have advised that [Table 3](#) on page 497 is incorrect. In the SPOT section, <4y, sensitive row, Cylinder column, the value should be  $\geq 2.75$  instead of 3.75.

The correct [Table 3](#) is as follows.

**Table 3** Instrument Referral Criteria from 3 Infrared Photoscreeners Targeting AAPOS 2021 Uniform Guidelines. SphEq is spherical equivalent in diopters
