

CORRIGENDUM

Impact of Isotretinoin on Blood Lipids and Liver Enzymes: A Retrospective Cohort Study in Saudi Arabia [Corrigendum]

Alrasheed AA, Alsadhan KF, Alfawzan NF, AbuDujain NM, Alnasser AH, Almousa H. *Ther Clin Risk Manag.* 2024;20:567—575.

Page 573, Discussion, second paragraph, second sentence, the text “The decrease in total cholesterol and LDL and the increase in HDL are consistent with the known effects of Isotretinoin on lipid metabolism” should read “The increase in total cholesterol and LDL and the decrease in HDL are consistent with the known effects of Isotretinoin on lipid metabolism”.

The authors apologize for this error.

Publish your work in this journal

Therapeutics and Clinical Risk Management is an international, peer-reviewed journal of clinical therapeutics and risk management, focusing on concise rapid reporting of clinical studies in all therapeutic areas, outcomes, safety, and programs for the effective, safe, and sustained use of medicines. This journal is indexed on PubMed Central, CAS, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
