

Evaluating Safety and Effectiveness of Switching Biologics in Managing Severe Asthma Patients [Corrigendum]

Al Awn L, AlAmmari M, AlAbdulkarim D, AlAhmed R, Yadav B, AL-Jahdali H. *J Asthma Allerg.* 2025;18:1161—1166.

Page 1161, Abstract, Results, line 4, the text “the mean number of exacerbations decreased after switching to a different biologic (6.6 vs 3.9, $p = 0.1$)” should read “the median number of exacerbations decreased after switching to a different biologic (4 vs 2, $p = 0.1$)”.

The authors apologize for this oversight.

Publish your work in this journal

The Journal of Asthma and Allergy is an international, peer-reviewed open-access journal publishing original research, reports, editorials and commentaries on the following topics: Asthma; Pulmonary physiology; Asthma related clinical health; Clinical immunology and the immunological basis of disease; Pharmacological interventions and new therapies. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
