

miR-424 Targets AKT3 and PSAT1 and Has a Tumor-Suppressive Role in Human Colorectal Cancer [Retraction]

Fang Y, Liang X, Xu J, Cai X. *Cancer Manag Res*. 2018;10:6537–6547.

We, the Editors and Publisher of the journal *Cancer Management and Research*, have retracted the published article.

After publication, the authors contacted the Journal in 2025 requesting correction to Figure 7 of their article due to errors which occurred during figure preparation.

Further investigation conducted by the Journal and Publisher identified integrity concerns, including unexpected overlaps in Figure 7c of the article with Figure 2c of the authors' previous publication that are representative of different treatment conditions:

Xu J, Wan X, Chen X, et al. miR-2861 acts as a tumor suppressor via targeting EGFR/AKT2/CCND1 pathway in cervical cancer induced by human papillomavirus virus 16 E6. *Sci Rep*. 2016;6:28968. <https://doi.org/10.1038/srep28968>

As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article. The corresponding author listed in this publication has been informed. The authors have agreed to retract the article.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

Cancer Management and Research

Publish your work in this journal

Cancer Management and Research is an international, peer-reviewed open access journal focusing on cancer research and the optimal use of preventative and integrated treatment interventions to achieve improved outcomes, enhanced survival and quality of life for the cancer patient. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
