

Construction of Paclitaxel-Loaded Poly (2-Hydroxyethyl Methacrylate)-g-Poly (Lactide)-1,2-Dipalmitoyl-Sn-Glycero-3-Phosphoethanolamine Copolymer Nanoparticle Delivery System and Evaluation of Its Anticancer Activity [Retraction]

Ma X, Wang H, Jin S, Wu Y, Liang X. *Int J Nanomedicine*. 2012;7:1313–1328. <https://doi.org/10.2147/IJN.S29371>

We, the Editors and Publisher of the journal, *International Journal of Nanomedicine*, have retracted the published article.

After publication, concerns were raised by a third party in 2025 regarding the integrity of the data in the article. Subsequently, the authors contacted the Journal requesting the correction of their article.

Further investigations conducted by the Journal and Publisher confirmed duplicate images, representative of different treatments and their effects on erythrocyte morphology, shown in Figure 4. The Journal and Publisher identified additional concerns regarding the animal studies conducted.

When approached for an explanation, the authors have cooperated with the investigation and have provided raw data to for Figure 4. However, whilst the investigation was on-going, the authors have contacted the Publisher requesting the withdrawal of the article due to the length of time taken to conclude the investigation. Therefore, as the Journal and Publisher have concerns regarding the integrity of the article, all parties have agreed to retract the article to ensure correction of the scholarly record.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
