

MicroRNA-29a Plays a Suppressive Role in Non-Small Cell Lung Cancer Cells via Targeting LASP1 [Retraction]

Hu ZL, Cui YH, Zhou YH, et al. *Onco Targets Ther.* 2016;9:6999—7009. <https://doi.org/10.2147/OTT.S116509>

We, the Editors and Publisher of *OncoTargets and Therapy*, have retracted the published article.

Since publication, concerns were identified by a third-party regarding the image integrity of Figures 1E, 2F, 3C, 4A, 4C, 4D, 5A, 5C, and 5D.

When approached for an explanation, the authors explained that they do not have the original images. As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article. The authors have agreed to retract the article.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

OncoTargets and Therapy

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
