

Degradability, Bioactivity, and Osteogenesis of Biocomposite Scaffolds of Lithium-Containing Mesoporous Bioglass and mPEG-PLGA-b-PLL Copolymer [Retraction]

Cai Y, Guo L, Shen H, et al. *Int J Nanomedicine*. 2015;10:4125—4136. <https://doi.org/10.2147/IJN.S82945>

We, the Editors and Publisher of the journal *International Journal of Nanomedicine*, have retracted the published article.

After publication, concerns have been raised by a third party in 2025 about the integrity of the data in Figures 2, 10, and 12 of the article.

Further investigation conducted by the Journal and Publisher confirmed the following:

- Duplicate image panels representative of different treatment conditions present in Figures 10A and 10B.
- Unusual similarities present within the individual images for the H&E staining shown in Figure 12.
- Unusual similarities were also identified within the SEM images shown in Figures 2 and 5. However, these were found to be a result of production errors.

When approached for an explanation, the authors did not respond to the queries raised by the Journal and Publisher.

As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article. The corresponding author listed in this publication has been informed.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as 'Retracted'.

International Journal of Nanomedicine

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®, Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
