

EXPRESSION OF CONCERN

Amino Acid-Responsive Crohn's Disease: A Case Study [Expression of Concern]

Stein A, Hinz M, Uncini T. *Clin Exp Gastroenterol*. 2010;3:171–177.

The Editor-in-Chief and Publisher of *Clinical and Experimental Gastroenterology* wish to issue an Expression of Concern for the published article.

Concerns have been raised regarding the alleged undisclosed competing interests of some of the authors, and the level of

information provided on methodology and study data for the published article. *Clinical and Experimental Gastroenterology* would like to alert readers of this while our investigation is still ongoing and we will provide an update following the conclusion of our investigation.

The authors have been informed of these concerns and of our investigation.

Clinical and Experimental Gastroenterology

Dovepress

Publish your work in this journal

Clinical and Experimental Gastroenterology is an international, peer-reviewed, open access, online journal publishing original research, reports, editorials, reviews and commentaries on all aspects of gastroenterology in the clinic and laboratory. This journal is indexed on American Chemical Society's Chemical Abstracts Service (CAS).

The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
