At the request of the authors, the Editor and Publisher of *Cancer Management and Research* wish to retract the published article. The authors have informed the journal that they have concerns with the reliability and reproducibility of the published results. In addition, they cannot provide any original data relating to their study and can no longer verify the findings as reported.

The Editor has agreed with the request to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.
