

Relative nutritional deficiencies associated with centrally acting monoamines [Corrigendum]

Hinz M, Stein A, Uncini T. *Int J Gen Med.* 2012;5:413–430.

On page 428, Disclosure section, “The authors report no conflicts of interest in this work.” should have read “MH discloses his relationship with West Duluth Distribution Company which terminated June 2011. The other authors report no conflicts of interest in this work”.

International Journal of General Medicine

Publish your work in this journal

The International Journal of General Medicine is an international, peer-reviewed open-access journal that focuses on general and internal medicine, pathogenesis, epidemiology, diagnosis, monitoring and treatment protocols. The journal is characterized by the rapid reporting of reviews, original research and clinical studies across all disease areas.

A key focus is the elucidation of disease processes and management protocols resulting in improved outcomes for the patient. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
