

Budesonide/Formoterol Anti-Inflammatory Reliever and Maintenance or Fluticasone Propionate/Salmeterol Plus as-Needed, Short-Acting β_2 Agonist: Real-World Effectiveness in patients Without Optimally Controlled asthma (REACT) Study [Corrigendum]

Cheng SL, Ho ML, Lai YF, et al. *Drug Des Devel Ther.* 2020;14:5441–5450.

The authors have advised there is an error in the formatting of the paper title on page 5441, the title “Budesonide/Formoterol Anti-Inflammatory Reliever and Maintenance or Fluticasone Propionate/Salmeterol Plus As-Needed, Short-Acting β_2 Agonist: Real-World Effectiveness in pAtients without Optimally Controlled asThma (REACT) Study” should read “Budesonide/Formoterol Anti-Inflammatory Reliever and Maintenance or Fluticasone Propionate/Salmeterol Plus As-Needed, Short-Acting β_2 Agonist: Real-world Effectiveness in pAtients without optimally Controlled asThma (REACT) Study”.

The authors have also advised the affiliation list on page 5441 is incorrect. The correct author list and affiliation is as follows.

Drug Design, Development and Therapy

Dovepress

Publish your work in this journal

Drug Design, Development and Therapy is an international, peer-reviewed open-access journal that spans the spectrum of drug design and development through to clinical applications. Clinical outcomes, patient safety, and programs for the development and effective, safe, and sustained use of medicines are a feature of the journal, which has also

been accepted for indexing on PubMed Central. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
