

The role of taxanes in triple-negative breast cancer: literature review [Corrigendum]

Mustacchi G, De Laurentiis M. *Drug Des Devel Ther.* 2015;9:4303–4318.

On page 4315, Disclosure section, “This work was supported by an unconditional grant from Editree editors, Italy, and both authors received a fee. Giorgio Mustacchi receives honoraria from Roche, Celgene, and Eisai. Michelino De Laurentiis receives honoraria from Roche, Celgene, Eisai, Novartis, and AstraZeneca. The authors report no other conflicts of interest in this work.” should have read “The authors report no conflict of interest with this work”.

Drug Design, Development and Therapy

Dovepress

Publish your work in this journal

Drug Design, Development and Therapy is an international, peer-reviewed open-access journal that spans the spectrum of drug design and development through to clinical applications. Clinical outcomes, patient safety, and programs for the development and effective, safe, and sustained use of medicines are a feature of the journal, which

has also been accepted for indexing on PubMed Central. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
