Reactive Oxygen Species-Mediated Inflammation and Apoptosis in Hand-Foot Syndrome Induced by PEGylated Liposomal Doxorubicin [Corrigendum]

Hu X, Dong M, Liang X, Liu Z, Li Q. Int J Nanomedicine. 2021;16:471-480.

The authors have advised Figure S3 in the Supplementary Materials is incorrect. Due to an error at the time of figure assembly the Control and Doxil images for Liver were duplicated. The correct Figure S3 is as follows.

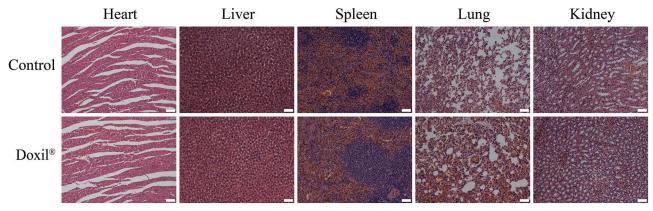

Figure S3 Histological analysis of main organs in normal rats and PLD-treated rats. Scale bar: 50 μm.

International Journal of Nanomedicine

Publish your work in this journal

The International Journal of Nanomedicine is an international, peerreviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/ testimonials.php to read real quotes from published authors.
