

RPL38 Regulates the Proliferation and Apoptosis of Gastric Cancer via miR-374b-5p/VEGF Signal Pathway [Retraction]

Ji H, Zhang X. *Onco Targets Ther.* 2020;13:6131–6141.

At the authors request, the Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. Concerns were raised to the authors regarding the integrity of the tumor images shown in Figure 6A. The authors were unable to provide satisfactory data in relation to the tumor images shown in this figure and were unable to support the integrity of the research. The authors requested to retract the article and the Editor agreed with this.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
