

Disposal Practices of Unused Medications Among Patients in Public Health Centers of Dessie Town, Northeast Ethiopia: A Cross Sectional Survey [Retraction]

Kassahun H, Tesfaye D. *Integr Pharm Res Pract.* 2020;9:65–70.

The Editor and Publisher of *Integrated Pharmacy Research and Practice* wish to retract the published article. Concerns were raised regarding the alleged duplicate publication of this article with an article published in *Current Drug Safety*, Kassahun and Tesfaye, 2020;15(2):105-110 (<http://www.eurekaselect.com/article/105569>).

The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged duplicate publication. The Editor requested to retract the article and the authors agreed with this decision.

We have been informed in our decision-making by our policy on publishing ethics and integrity and the COPE guidelines on retractions.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

Integrated Pharmacy Research and Practice is an international, peer-reviewed, open access, online journal, publishing original research, reports, reviews and commentaries on all areas of academic and professional pharmacy practice. This journal aims to represent the academic output of pharmacists and pharmacy practice with particular focus on integrated care. All papers are carefully peer reviewed to ensure the highest standards as well as ensuring that we are informing and stimulating pharmaceutical professionals. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
