

Sinonasal Symptoms in COPD: Burden and Associations with Clinical Markers of Disease [Corrigendum]

Øie MR, Helvik AS, Sue-Chu M, Steinsvåg SK, Thorstensen WM. *Int J Chron Obstruct Pulmon Dis*. 2022;17:2137–2147.

Page 2137, Abstract, Patients and Methods section, line 2, the text “in 93 COPD patients” should read “in 90 COPD patients”.

The authors have also advised Figure 1 on page 2138 is incorrect. Without RSsNP should be n=44 and With RSsNP should be n=46. The correct Figure 1 is as follows.

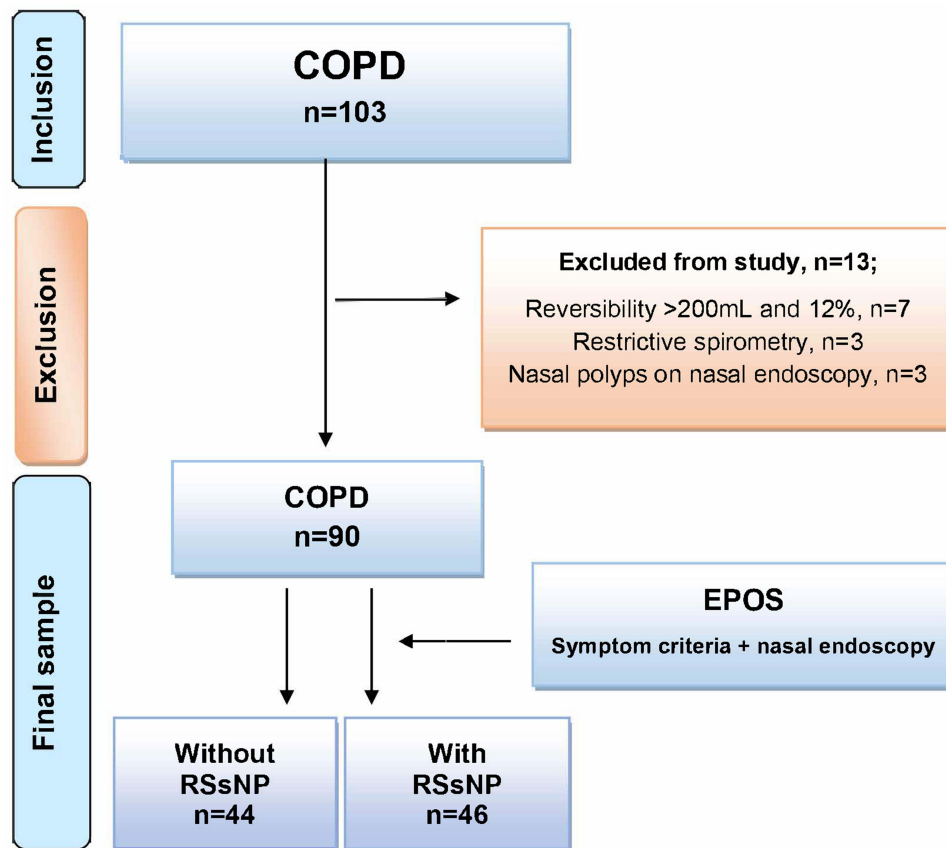

Figure 1 Flow chart of the study participants and the subjects excluded.

Abbreviations: EPOS, European Position Paper on Rhinosinusitis and Nasal Polyps (2012); RSsNP, Rhinosinusitis sin Nasal Polyps.

International Journal of Chronic Obstructive Pulmonary Disease

Dovepress

Publish your work in this journal

The International Journal of COPD is an international, peer-reviewed journal of therapeutics and pharmacology focusing on concise rapid reporting of clinical studies and reviews in COPD. Special focus is given to the pathophysiological processes underlying the disease, intervention programs, patient focused education, and self management protocols. This journal is indexed on PubMed Central, MedLine and CAS. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
