

## The Roles of Serum CXCL16 in Circulating Tregs and Gastrointestinal Stromal Tumor Cells [Retraction]

Xing Y, Zhang J, Xu H. *Onco Targets Ther.* 2016;9:3939–3949.

We, the Editor and Publisher of *OncoTargets and Therapy* are retracting the published article. Concerns were raised following the authors request to correct images in Figure 3. It was found some of the images had been duplicated. Specifically,

- Images from Figure 3C, Migration, Treg-C+S and Migration, GIST882-sorafenib have been duplicated.
- Images from Figure 3C, Invasion, Treg and Migration, GIST-T1-sorafenib have been duplicated.

When approached for an explanation, the authors were cooperative but were unable to adequately address the concerns raised and could not provide sufficient supporting information. As verifying the validity of published work is core to the integrity of the scholarly record, we are therefore retracting the article. The authors listed in this publication have been informed.

We have been informed in our decision-making by our editorial policies and the COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

### Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
