

1

2 **Figure suppl 1.** SOX17 expression is not correlated with estrogen and progesterone
 3 in endometrial cancer (EC) cells. Real-time PCR were used to detect SOX17
 4 expression in HEC-1B and Ishikawa cell lines. (A) Estrogen (10 nM) for 48 hours, the
 5 expression of SOX17 in EC cells, with no significant statistic differences. (B)
 6 Progesterone (10 nM) for 48 hours, the expression of SOX17.
