Supplementary table 1. ROC curve analysis of preoperative prognostic score versus other staging systems

|  | AUC (95%CI) | P |
| --- | --- | --- |
| Prognostic score model | 0.696（0.636-0.757) | <0.001 |
| TNM staging system | 0.620（0.555-0.685） | <0.001 |
| CLIP staging system | 0.612（0.547-0.677） | 0.001 |
| Qkuda staging system | 0.553（0.487-0.619） | 0.114 |
| BCLC staging system | 0.619（0.554-0.683） | <0.001 |

Supplementary figure 1. Predictive ability of the prognostic score was compared with common used staging system such as BCLC, TNM, CLIP and Qkuda staging systems by ROC curve analysis.
