

Supplementary Figure1. KEGG pathway enrichment analysis of differentially expressed metabolites. KEGG pathway annotation of ferroptosis between LPS and Normal group (KEGG ID: map04216).

Overview of Enriched Metabolite Sets (Top 25)

Supplementary Figure2. Bubble plot of metabolic pathways (top25) built by metaboanalyst. Pathway annotation of differentially enriched metabolites affected by Dex in sepsis.

Supplementary Figure3. KEGG pathway annotation of Glutathione metabolism affected by Dex in sepsis (KEGG ID: map00480).
