

Figure S1. Expression of CD80, CD86, CDK5 and STAT3 in DC cells with LPS stimulation for 24h. Representative images from at least 3 experiments are shown. Scale bars, 50 μ m.

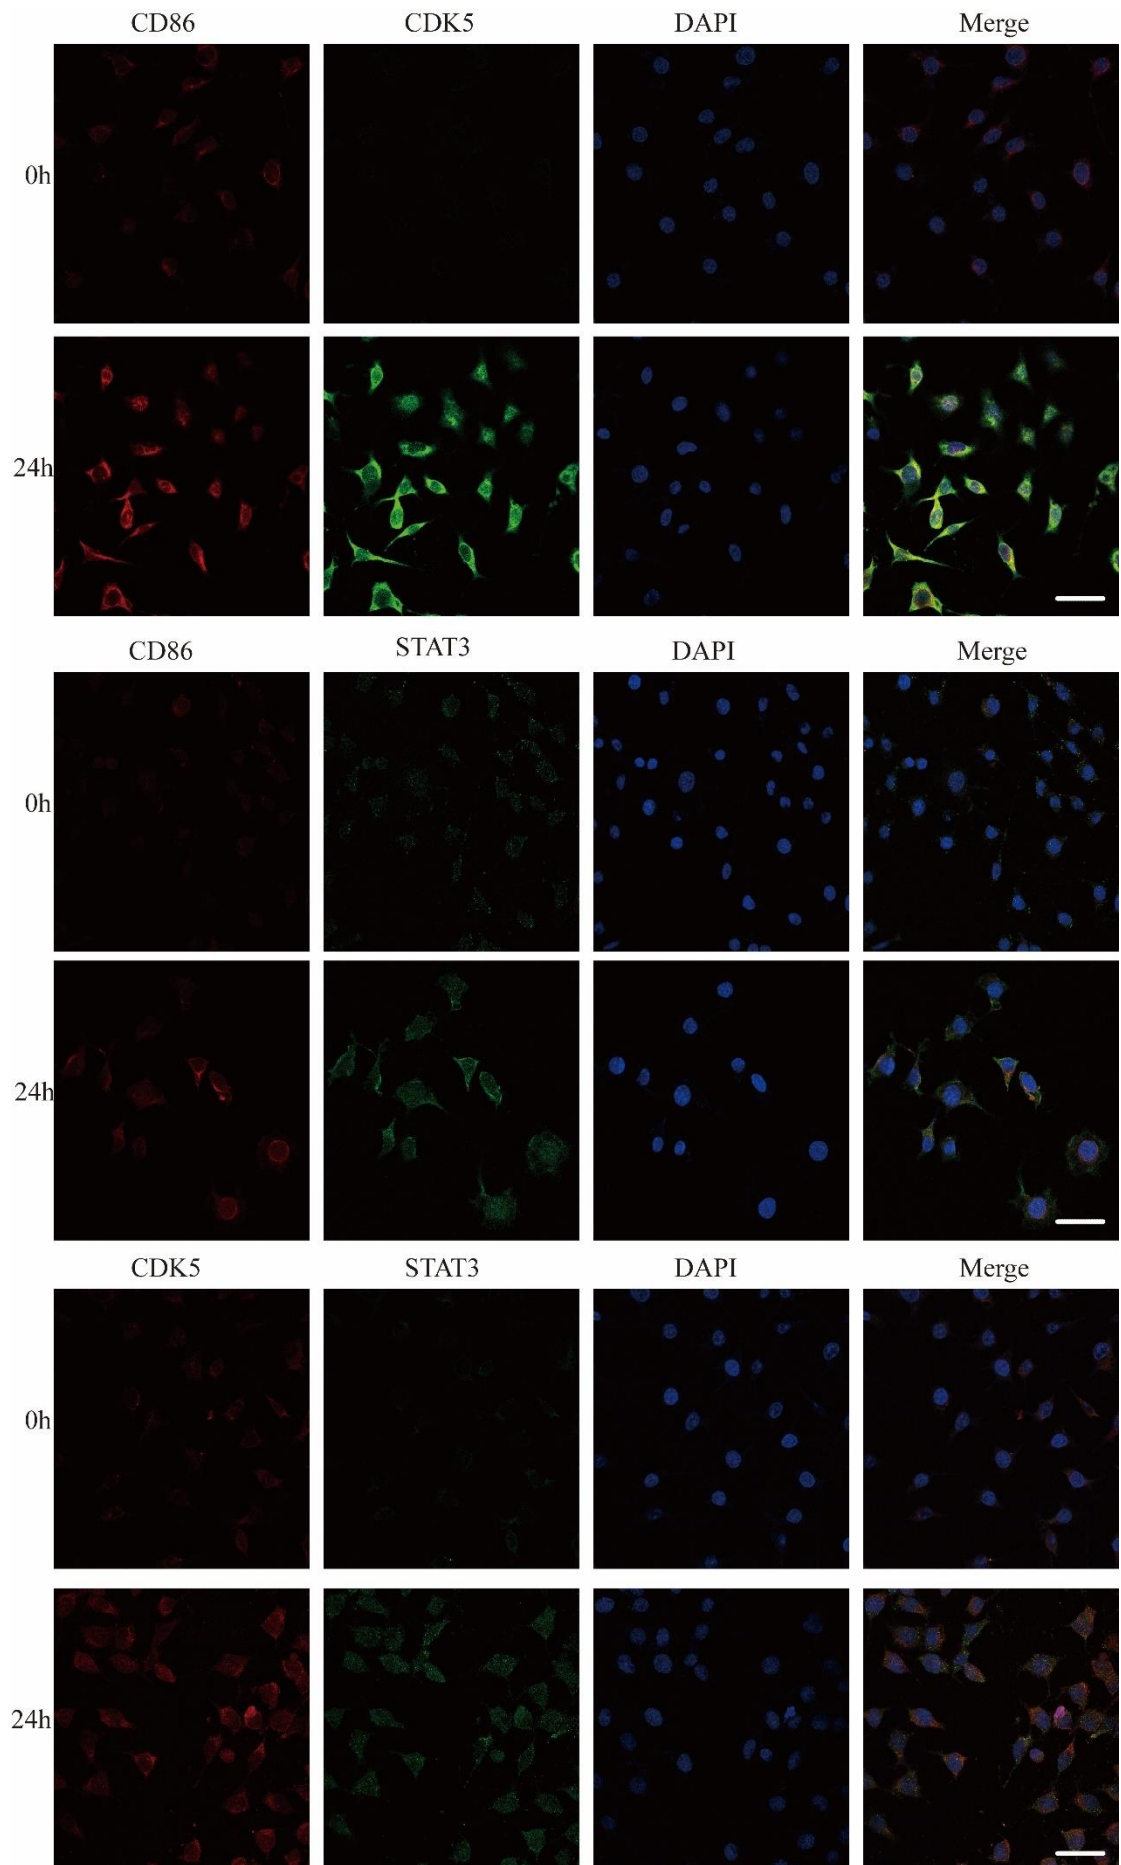

Figure S2. Expression of CD86, CDK5 and STAT3 in DC cells with LPS stimulation for 24h. Representative images from at least 3 experiments are shown. Scale bars, 50 μ m.

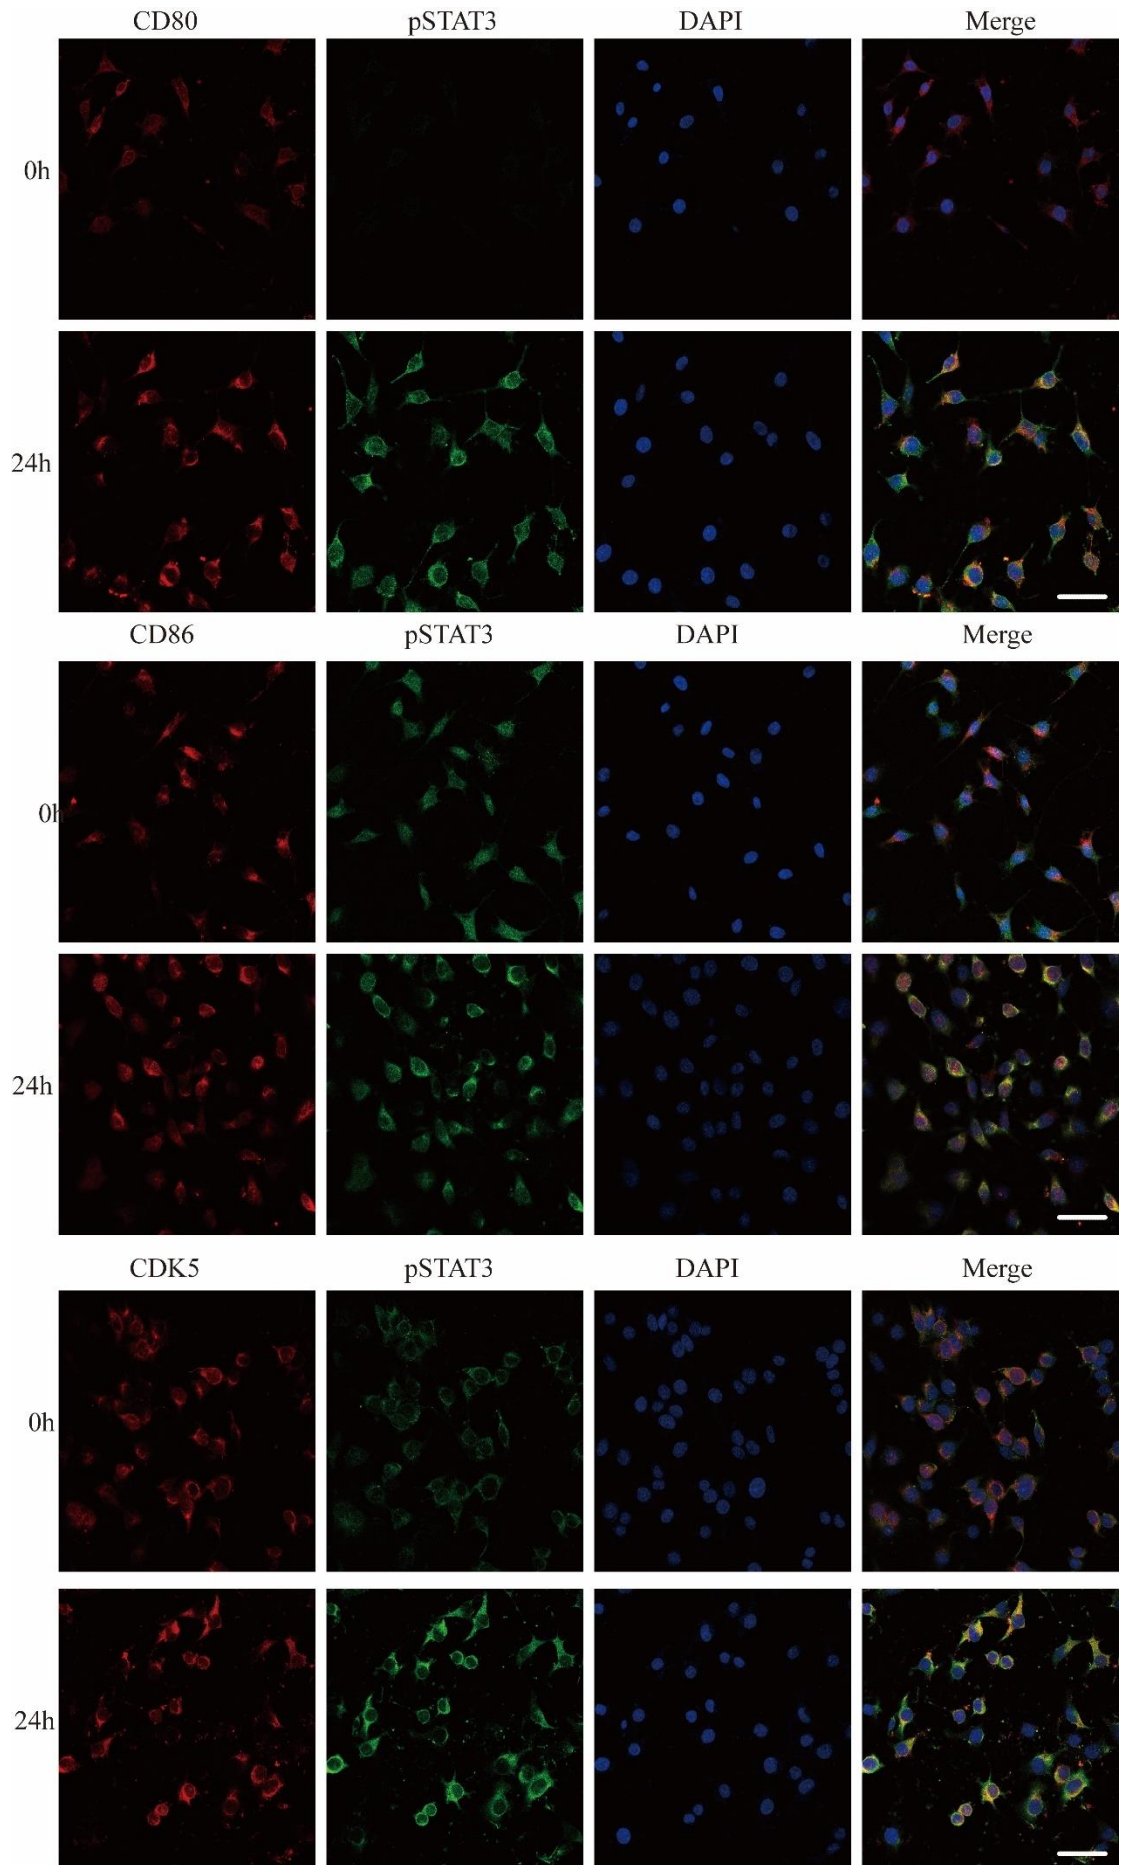

Figure S3. Expression of CD80, CD86, CDK5 and pSTAT3 in DC cells with LPS stimulation for 24h. Representative images from at least 3 experiments are shown. Scale bars, 50 μ m.
