RETRACTION

The Down-Regulation of TrkB Alleviates the Malignant Biological Behavior and Cancer Stem-Like Property of Laryngeal Cancer [Retraction]

We, the Editor and Publisher of the journal Cancer Management and Research have retracted the published article.

Following publication of the article, concerns were raised about the duplication of images from Figures 1, 3 and 4 with images from unrelated articles. Specifically,

- Images for Figure 3H and 3I have been duplicated with images for Figure 1C from Sun R, et al (2020); Figure 2B from Chen X, Yang X, Mu J, Yue C. Ligustrazine inhibits the viability and motility of colon cancer cells. Transl Cancer Res. 2020;9(5):3203-3213. https://doi.org/10.21037/tcr-20-940; Figure 2C from Guo X, Li H, Zhang M, Li R. LncRNA GAS6 antisense RNA 1 facilitates the tumorigenesis of clear cell renal cell carcinoma by regulating the AMP-activated protein kinase/mTOR signaling pathway. Oncology Letters. 2021;22:727. https://doi.org/10.3892/ol.2021.12988 [RETRACTED] and Figure 5b from Liang JH, Xu QD, Gu SG. LncRNA RSU1P2-microRNA let-7a-Testis-Expressed Protein 10 axis modulates tumorigenesis and cancer stem cell-like properties in liver cancer. Bioengineered. 2022;13(2):4285–4300. https://doi.org/10.1080/21655979.2022.2031394.

- In addition, images for Figure 1F, AMC-HN-8, TrkB-shRNA1, have been duplicated with images for Figure 3I, AMC-HN-8, TrkB-shRNA1.

The corresponding author did not respond to our queries and was unable to provide a satisfactory explanation for how the images came to be duplicated or provide satisfactory original data for the study. As verifying the validity of published
work is core to the integrity of the scholarly record, the Publisher and Editor requested to retract the article and the corresponding author was notified of this.

We have been informed in our decision-making by our editorial policies and COPE guidelines.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Cancer Management and Research

Publish your work in this journal

Cancer Management and Research is an international, peer-reviewed open access journal focusing on cancer research and the optimal use of preventative and integrated treatment interventions to achieve improved outcomes, enhanced survival and quality of life for the cancer patient. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/testimonials.php to read real quotes from published authors.
