International Journal of High Throughput Screening

Publish your work in this journal

International Journal of High Throughput Screening is an international, peer-reviewed, open access journal publishing original research, reports, editorials, reviews and commentaries dedicated to all aspects of high throughput screening, especially related to drug discovery and associated areas of biology and chemistry. The manuscript management sys-

tem is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
