Corrigendum

Santana L, Fontenelle LF. A review of studies concerning treatment adherence of patients with anxiety disorders. *Patient Preference and Adherence*. 2011;5:427–439.

1. On page 432, row 3, column 7 of Table 4 (Mancebo et al, Cognitive predictors of adherence) should be:

Patients who reported not adhering to medication described that different factors influenced their decision, including disliking medication side effects, feeling too anxious/fearful of taking medication, and perceiving treatment as not useful. Patients who described not adhering to CBT reported a number of perceived environmental barriers, such as lack of time, no money to pay for therapy, or not having CBT available.

2. On page 438, column 1, paragraph 2 under the heading OCD should be:

Mancebo et al¹⁴ found that, of the 22 patients with OCD who did not adhere to CBT, 50% reported perceived environmental barriers, including being too busy or feeling that treatment was inconvenient, not having enough money to pay for CBT, not possessing a health insurance plan that covered CBT, and not having CBT available. Conversely, of the 46 patients with OCD who reported medication nonadherence, 78.3% described disliking side effects, 41.3% argued that they were feeling too anxious/fearful of taking medication, and 41.3% perceived treatment as not useful.

Publish your work in this journal

Patient Preference and Adherence is an international, peer-reviewed, open access journal focusing on the growing importance of patient preference and adherence throughout the therapeutic continuum. Patient satisfaction, acceptability, quality of life, compliance, persistence and their role in developing new therapeutic modalities and compounds to

optimize clinical outcomes for existing disease states are major areas of interest. This journal has been accepted for indexing on PubMed Central. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
