Azelnidipine plus olmesartan versus amlodipine plus olmesartan on arterial stiffness and cardiac function in hypertensive patients: a randomized trial [Corrigendum]

On page 177, line 26, heading “Measurement of LVMI and LF diastolic function” should have been “Measurement of LVMI and LV diastolic function”. Line 32, “Devereux et al18” should read “Devereux et al19”. Line 40, “(E/e’ ratio) were measured as previously described.19” should read “(E/e’ ratio) were measured as previously described.20”.

On page 181, line 15, “baPWV with LVMI.20” should read “baPWV with LVMI.21”. Line 23, “baPWV and LVMI, E/A ratio.20” should read “baPWV and LVMI, E/A ratio.21,22”. Line 28 “diastolic dysfunction.21” should read “diastolic dysfunction.23”. Line 38 “is high.22” should read “is high.24”. Line 39, “in clinical treatment.23” should read “in clinical treatment.25”. Line 57, “A recent cohort study24” should read “A recent cohort study21”.

On page 182, line 1, “diastolic heart failure.23” should read “diastolic heart failure.26”. Line 3, “untreated hypertensive patients.20” should read “untreated hypertensive patients.27”. Line 6, “linear regression analysis.27” should read “linear regression analysis.21”.

On page 183, the references 18 to 27 should be updated as shown below:
