

Impact of an educational program on nursing students' caring and self-perception in intensive clinical training in Jordan [Retraction]

It has come to the notice of Dr AA Majumder (Editor-in-Chief of *Advances in Medical Education and Practice*) that the paper published by Dove Medical Press: Khouri R. Impact of an education program on nursing students' caring and self-perception in intensive clinical training in Jordan. *Advances in Medical Education and Practice*. 2011;2:173–185 has re-used (without reference) portions of the work of Bayoumy HN and Saeda AM. Impact of a program of education and supervision on nurses' interns' caring and professional self concept at selected Cairo University hospitals. 2nd International Nursing Conference: Transforming the Nurse's Role in Health Care Practice PSMCHS – Dharan, Kingdom of Saudi Arabia, May 10–11, 2009.

Accordingly we retract Khouri R. Impact of an education program on nursing students' caring and self-perception in intensive clinical training in Jordan. *Advances in Medical Education and Practice*. 2011;2:173–185.
