Asmar R, Nisse-Durgeat S. 2006. A large scale study of angiotensin II inhibition therapy in an elderly population. *Vasc Health Risk Manag*, 2:317-23.

On p 320, left column, the last sentence of the first paragraph should read:

“Comparable results were observed in the PP population: the target was achieved by 63.8% and 85.6% at week 4 and week 8, respectively.”
