

Endoscopic bronchial valve treatment: patient selection and special considerations [Corrigendum]

Eberhardt R, Gompelmann D, Herth FJ, Schuhmann M.
Int J Chron Obstruct Pulmon Dis. 2015;10:2147–2157.

On page 2149, Figure 2, the authors would like to advise that:

Notes: (A and B) Right – endobronchial valves (Zephyr[®], Redwood City, CA, USA) have been placed in the left lower lobe. Left – intrabronchial valves in the left upper lobe (Spiration[®], Olympus, Tokyo, Japan).

Should have read:

Notes: (A and B) Left – endobronchial valves (Zephyr[®], Redwood City, CA, USA) have been placed in the left lower lobe. Right – intrabronchial valves in the left upper lobe (Spiration[®], Olympus, Tokyo, Japan).

Publish your work in this journal

The International Journal of COPD is an international, peer-reviewed journal of therapeutics and pharmacology focusing on concise rapid reporting of clinical studies and reviews in COPD. Special focus is given to the pathophysiological processes underlying the disease, intervention programs, patient focused education, and self management protocols.

Submit your manuscript here: <http://www.dovepress.com/international-journal-of-chronic-obstructive-pulmonary-disease-journal>

This journal is indexed on PubMed Central, MedLine and CAS. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
