

Prospective interepisodal mood monitoring in patients with affective disorders: a feasibility study [Corrigendum]

Van der Watt ASJ, Suryapranata APSP, Seedat S. *Neuropsychiatr Dis Treat*. 2018;14:517–524.

On page 518, “Introduction” section, left hand column, the sentence “In particular, there is evidence to demonstrate that the use of weekly correspondence using the Altman Self-Rating Mania Scale (ASRM) and Quick Inventory of Depressive Symptomatology (QIDS-SR 16) may be a useful adjunct to treatment for patients with bipolar disorder.¹⁰” should read “In particular, there is evidence to demonstrate that the use of weekly correspondence using the Altman Self-Rating Mania Scale (ASRM)²⁵ and Quick Inventory of Depressive Symptomatology (QIDS-SR 16) may be a useful adjunct to treatment for patients with bipolar disorder.¹⁰”

On page 519, “ASRM” section, left hand column, the sentence “The ASRM is a five-item self-report questionnaire measuring mania-related symptoms.” should read “The ASRM²⁵ is a five-item self-report questionnaire measuring mania-related symptoms.”

On page 524, “References” list, an additional reference 25 should be added after reference 24.

Altman EG, Hedeker D, Peterson JL, Davis JM. The Altman self-rating mania scale. *Biol Psychiatry*. 1997;42(10):948–955.

Publish your work in this journal

Neuropsychiatric Disease and Treatment is an international, peer-reviewed journal of clinical therapeutics and pharmacology focusing on concise rapid reporting of clinical or pre-clinical studies on a range of neuropsychiatric and neurological disorders. This journal is indexed on PubMed Central, the ‘PsycINFO’ database and CAS,

and is the official journal of The International Neuropsychiatric Association (INA). The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
