

Prevalence of resistance-associated substitutions to direct-acting antiviral agents in hemodialysis and renal transplant patients infected with hepatitis C virus [Erratum]

Tavares RCF, Feldner AC, Pinho JR, et al. *Infect Drug Resist.* 2018;11:1993–2000.

Page 1999, reference 40 was listed incorrectly. “Alves da Silva R. Molecular characterization of hepatitis C virus in end-stage renal disease patients under hemodialysis. *Journal of Medical Virology* 90. 2018;3:537–544.” should read “Alves da Silva R, Todão JS, Kamitani FL, et al. Molecular characterization of hepatitis C virus in end-stage renal disease patients under hemodialysis. *Journal of Medical Virology* 90. 2018;3:537–544.”

Infection and Drug Resistance

Dovepress

Publish your work in this journal

Infection and Drug Resistance is an international, peer-reviewed open-access journal that focuses on the optimal treatment of infection (bacterial, fungal and viral) and the development and institution of preventive strategies to minimize the development and spread of resistance. The journal is specifically concerned with the epidemiology of antibiotic

resistance and the mechanisms of resistance development and diffusion in both hospitals and the community. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
