

**Validation of two automatic devices, Omron HEM-6232T and HEM-6181, for self-measurement of blood pressure at the wrist according to the ANSI/AAMI/ISO 81060-2:2013 protocol and the European Society of Hypertension International Protocol revision 2010 [Corrigendum]**

Saito K, Hishiki Y, Takahashi H. *Vasc Health Risk Manag.* 2019;15:47–55.

The authors advise that an image in Figure 1 was not correct. An image of an HEM-6323T was mistakenly

shown instead of an image of an HEM-6232T. The authors apologize for this error and confirm that this correction has no impact on the findings of the study.

On page 48, Figure 1 should have been presented as follows:

Figure 1 Omron HEM-6232T (left) and Omron HEM-6181 (right).

Vascular Health and Risk Management is an international, peer-reviewed journal of therapeutics and risk management, focusing on concise rapid reporting of clinical studies on the processes involved in the maintenance of vascular health; the monitoring, prevention and treatment of vascular disease and its sequelae; and the involvement

of metabolic disorders, particularly diabetes. This journal is indexed on PubMed Central and MedLine. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
