

Optimizing compliance with surgical antimicrobial prophylaxis guidelines in patients undergoing gastrointestinal surgery at a referral teaching hospital in southern Iran: clinical and economic impact [Corrigendum]

Mahmoudi L, Ghouchani M, Mahi-Birjand M, Bananzadeh A, Akbari A. *Infect Drug Resist.* 2019;12:2437—2444.

The value “121 (92.14%)” in the row ‘Timing >48 hrs’ and column ‘Group 1*n (%)’ should instead read “410 (92.13%)”.

The author has advised that they made a typing error in Table 1 on page 2441 and they did not notice this before the paper was published.

Publish your work in this journal

Infection and Drug Resistance is an international, peer-reviewed open-access journal that focuses on the optimal treatment of infection (bacterial, fungal and viral) and the development and institution of preventive strategies to minimize the development and spread of resistance. The journal is specifically concerned with the epidemiology of

antibiotic resistance and the mechanisms of resistance development and diffusion in both hospitals and the community. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
