β-elemene inhibits radiation and hypoxia-induced macrophages infiltration via Prx-1/NF-κB/HIF-1α signaling pathway [Corrigendum]

On pages 4206 and 4209, Figures 1(D) and 4(D) should be presented as follows. The remaining of the figure images and captions for Figures 1 and 4 remain as accurate as published.

Following a review of our data post-publication, we found the incorrect images were used for Figures 1(D) and 4(D) during the process of data transmission and layout. This correction of images has no impact to the findings of the study. The authors apologize for these errors.
