## Publish your work in this journal

Robotic Surgery: Research and Reviews is an international, peer reviewed, open access, online journal publishing original research, commentaries, reports, and reviews on the theory, use and application of robotics in surgical interventions. Articles on the use of supervisory-controlled robotic systems, telesurgical devices, and shared-control

systems are invited. The manuscript management system is completely online and includes a very quick and fair peer review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
