Association Between the Communication Skills of Physicians and the Signing of Do-Not-Resuscitate Consent for Terminally Ill Patients in Emergency Rooms (Cross-Sectional Study) [Corrigendum]

Chen CH, Cheng YH, Chen FJ, et al. Association between the communication skills of physicians and the signing of do-not-resuscitate consent for terminally ill patients in emergency rooms (cross-sectional study). *Risk Manag Healthc Policy*. 2019;12:307–315.

The authors advise that they have forgotten to add the Funding section to the manuscript. On page 313 the acknowledgment should read:

Funding

We would like to thank the Kaohsiung Chang Gung Memorial Hospital for its funding support for this research project (CDRPG8E0041-3 & CMRPG8G0681).

The authors apologize for this error.

Publish your work in this journal

Risk Management and Healthcare Policy is an international, peer-reviewed, open access journal focusing on all aspects of public health, policy, and preventative measures to promote good health and improve morbidity and mortality in the population. The journal welcomes submitted papers covering original research, basic science, clinical & epidemiological studies, reviews and evaluations,

guidelines, expert opinion and commentary, case reports and extended reports. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
