

CORRIGENDUM

Predictors of Depression, Anxiety and Stress Indicators in a Cohort of Women with Chronic Pelvic Pain [Corrigendum]

Brooks T, Sharp R, Evans S, Baranoff J, Esterman A. *J Pain Res.* 2020;13:527–536.

The authors have advised that there is an error in the text of the Discussion, Pain Severity section. The text “In this study, pain intensity showed significant correlation with the stress subscale of the DASS21, but not the depression

and anxiety subscales.” should read “In this study, all three DASS21 subscales were significantly correlated with pain severity.”

This amendment does not affect the results of the study. The authors apologize for this error.

Journal of Pain Research

Dovepress

Publish your work in this journal

The Journal of Pain Research is an international, peer reviewed, open access, online journal that welcomes laboratory and clinical findings in the fields of pain research and the prevention and management of pain. Original research, reviews, symposium reports, hypothesis formation and commentaries are all considered for publication. The manuscript

management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
