

Assessing Building Blocks for Patient Safety Culture—a Quantitative Assessment of Saudi Arabia [Corrigendum]

Alrowely Z, Ghazi Baker O. *Risk Manag Healthc Policy*. 2019;12:275–285.

The authors have advised that the Acknowledgment statement on page 284 is incorrect. The text “The authors are very thankful to all the associated personnel in any reference that contributed in/for the purpose of this research” should read “The authors acknowledge the support provided by the

Deanship of Scientific Research at King Saud University, through the Research Center at College of Nursing. Furthermore, the authors are very thankful to all the associated personnel in any reference that contributed in/for the purpose of this research”.

The authors apologize for this error.

Publish your work in this journal

Risk Management and Healthcare Policy is an international, peer-reviewed, open access journal focusing on all aspects of public health, policy, and preventative measures to promote good health and improve morbidity and mortality in the population. The journal welcomes submitted papers covering original research, basic science, clinical & epidemiological studies, reviews and evaluations,

guidelines, expert opinion and commentary, case reports and extended reports. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
