Dear editor

We thank the authors for their response to our article entitled: “Historical Development, Applications and Advances in Materials Used in Spectacle Lenses and Contact Lenses.”

Lens materials is a fascinating and dynamic field. Evolving research using emerging technologies has a vital role in improving patient comfort and vision. If adopted, the coatings mentioned in the letter will be a welcome complement to the current range of contact lens materials and coatings.

Disclosure

The authors report no conflicts of interest for this communication.

Publish your work in this journal

Clinical Optometry is an international, peer-reviewed, open access journal publishing original research, basic science, clinical and epidemiological studies, reviews and evaluations on clinical optometry. All aspects of patient care are addressed within the journal as well as the practice of optometry including economic and business analyses. Basic and clinical research papers are published that cover

all aspects of optics, refraction and its application to the theory and practice of optometry. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
