

# Management of Hepatitis B Surface Antigen and Hepatitis C Antibody-Positive Patients by Departments Not Specializing in Hepatology at a Suburban University Hospital in Japan: A Single-Center Observational Study [Corrigendum]

Tokushima Y, Tago M, Tokushima M, et al. *Int J Gen Med.* 2020;13:743—750.

The authors have advised there are errors in Table 1 on page 746 in the Hbs-Ag positive patients' data. The errors were introduced during the creation of the Table.

The correct Table 1 is shown below:

The errors were only in the patients' background and do not affect the main results (consultation rate, comparison of RF and non-RF groups), discussion, or conclusion of the paper.

The authors apologize for these errors.
