microRNA-605 Directly Targets SOX9 to Alleviate the Aggressive Phenotypes of Glioblastoma Multiforme Cell Lines by Deactivating the PI3K/Akt Pathway [Retraction]

The authors responded to our queries but were unable to provide an explanation for the alleged image duplication and could not provide the original raw data for their study and have therefore agreed to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Figure 7B, Agomir-605 appears to have been duplicated with a similar image in Figure 9A, miR-944 mimics from Lv et al, 2019 (https://doi.org/10.2147/CMAR.S199818).
