MicroRNA-876 is Sponged by Long Noncoding RNA LINC00707 and Directly Targets Metadherin to Inhibit Breast Cancer Malignancy [Retraction]

Li T, Li Y, Sun H. *Cancer Management and Research*. 2019;11:5255–5269

Figure 4D from Chen et al, 2019 (<https://doi.org/10.2147/OTT.S192137>).

The Editor and Publisher of *Cancer Management and Research* wish to retract the published article. Concerns were raised over alleged image duplication in Figures 2C and 6B with similar images from unrelated articles, specifically:

- Figure 2C, panel MCF-7 Agomir-NC appears to have been duplicated with a similar image in Figure 2D from Lv et al, 2019 (<https://doi.org/10.2147/CMAR.S199818>).
- Figure 6B, panel MDA-MB-231 si-NC appears to have been duplicated with a similar image in

The authors did not respond to our queries and the Editor determined the findings of the study were no longer valid and advised for the article to be retracted.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

Cancer Management and Research is an international, peer-reviewed open access journal focusing on cancer research and the optimal use of preventative and integrated treatment interventions to achieve improved outcomes, enhanced survival and quality of life for the cancer patient.

The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
