

Study on the Effect of Two Different Transfusion Methods in Neonates with Hyperbilirubinemia Induced by Non-Blood-Group Antibodies [Corrigendum]

Wu K, Chen L, Huang H. *Int J Gen Med*. 2021;14:7311–7316.

The authors have advised affiliations 1 and 2 and the correspondence address on page 7311 is incorrect. The text “Fujian Provincial Maternity and Children’s

Hospital” should read “Fujian Maternity and Child Health Hospital, Affiliated Hospital of Fujian Medical University”.

The authors apologize for this oversight.

Publish your work in this journal

The International Journal of General Medicine is an international, peer-reviewed open-access journal that focuses on general and internal medicine, pathogenesis, epidemiology, diagnosis, monitoring and treatment protocols. The journal is characterized by the rapid reporting of reviews, original research and clinical studies

across all disease areas. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.

Submit your manuscript here: <https://www.dovepress.com/international-journal-of-general-medicine-journal>
