

Biogenic Silver Nanoparticles Using *Rhinacanthus Nasutus* Leaf Extract: Synthesis, Spectral Analysis, and Antimicrobial Studies [Retraction]

Pasupuleti VR, Prasad TNVKV, Sheikh RA, et al. *Int J Nanomedicine*. 2013;8(1):3355–3364.

At the authors request, the Editor and Publisher of *International Journal of Nanomedicine* wish to retract the published article. Concerns were raised over alleged image manipulation in Figure 5 in which elements of the image appeared to have duplicated several times. The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged image manipulation. The authors were able to provide the origi-

nal images for Figure 5 but they could not be used as a replacement for a corrigendum and both the Editor and authors agreed to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine,

Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
