EXPRESSION OF CONCERN

Vitamin D Reduces Falls and Hip Fractures in Vascular Parkinsonism but Not in Parkinson's Disease [Expression of Concern]

Sato Y, Iwamoto J, Honda Y, Amano N. *Ther Clin Risk Manag.* 2013;9:171–176

The Editor and Publisher of *Therapeutics and Clinical Risk Management* wish to publish an Expression of Concern for the published article. Concerns were raised to the Editor regarding the scientific integrity of the article's content. We have contacted the authors requesting they supply information that would confirm the integrity of the data reported in the article but have received no response.

Therefore, as we continue to work through the issues raised, we advise readers to interpret the information presented in the article with due caution.

The authors have been notified about this Expression of Concern.

Publish your work in this journal

Therapeutics and Clinical Risk Management is an international, peer-reviewed journal of clinical therapeutics and risk management, focusing on concise rapid reporting of clinical studies in all therapeutic areas, outcomes, safety, and programs for the effective, safe, and sustained use of medicines. This journal is indexed on PubMed Central, CAS, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
