

RETRACTION

Concentration-Dependent Toxicity of Iron Oxide Nanoparticles Mediated by Increased Oxidative Stress [Retraction]

Naqvi S, Samim M, Abdin M, et al. *Int J Nanomedicine*. 2010;5:983–989.

The Editor and Publisher of the *International Journal of Nanomedicine* wish to retract the published article. Concerns were raised regarding the alleged duplication of features within the TEM image shown in Figure 2. The authors responded to our queries but were unable to provide an adequate explanation for the alleged duplication or the original data for Figure 2.

The Editor requested a retraction, and the authors were notified of this decision.

We have been informed in our decision-making by our policy on publishing ethics and integrity and the COPE guidelines on retractions.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted.”

International Journal of Nanomedicine

Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch®, Current Contents®/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
