

## Gastric H<sup>+</sup>/K<sup>+</sup>-ATPase Expression in Normal Laryngeal Tissue and Laryngeal Carcinoma [Corrigendum]

Bao YY, Jiang Q, Li ZW, et al. *Onco Targets Ther.* 2020;13:12919–12931.

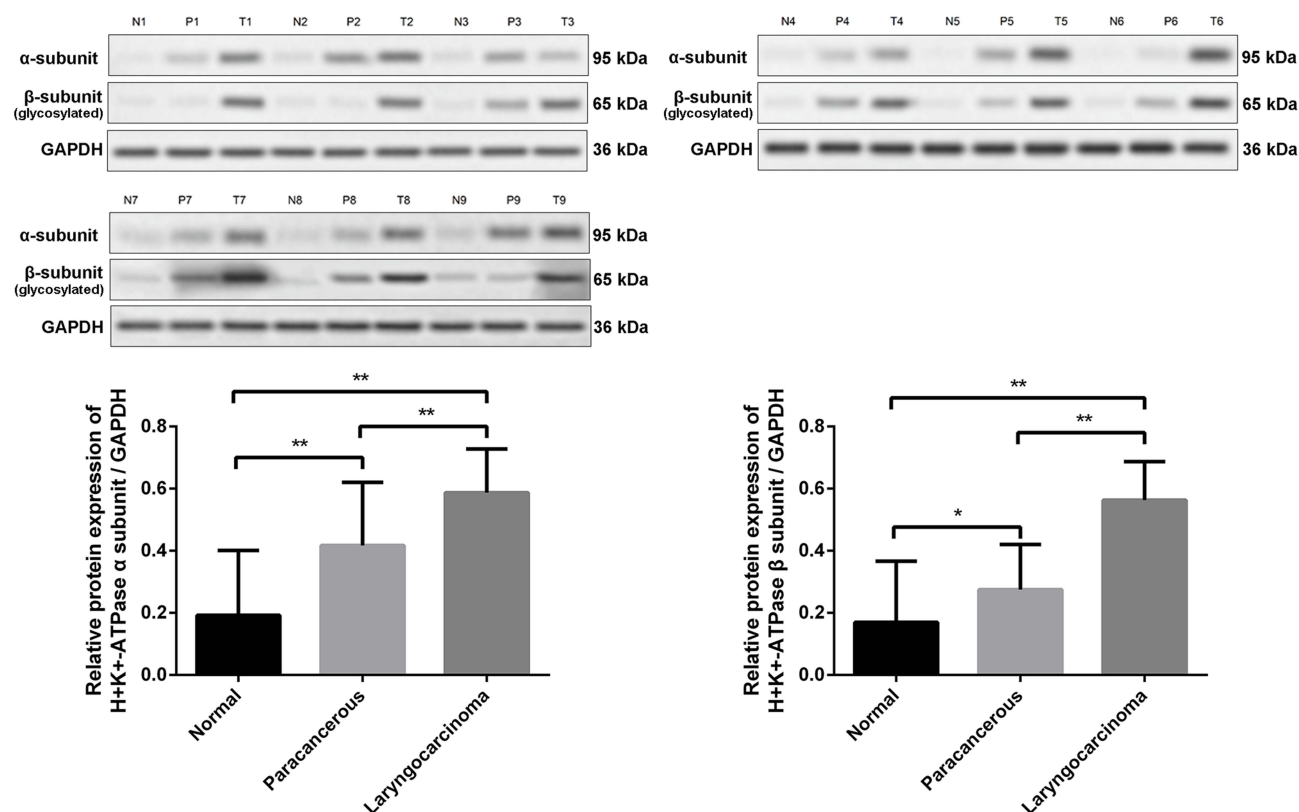

Page 12920, Materials and Methods, Specimens section, second paragraph, lines 3 and 8, the text “60 paracarcinoma tissue samples” should read “57 paracarcinoma tissue samples” and “30 and 60 specimens” should read “30 and 20 specimens”, respectively.

Page 12921, Table 1, Paracarcinoma Tissues from 20 of 30 Patients column, the value “60” should read “57” and the values for RT-PCR and WB are incorrect. The correct Table 1 is shown below.

**Table 1** Numbers of specimens for three detection methods

Total	Normal Laryngeal Tissues from 59 Patients			Laryngeal Carcinoma from 30 Patients			Paracarcinoma Tissues from 20 of 30 Patients		
	195			90			57		
	IHC	RT-PCR	WB	IHC	RT-PCR	WB	IHC	RT-PCR	WB
$\alpha$	181	168	55	30	30	30	17	20	20
$\beta$	195	171	55	30	30	30	17	20	20

Additionally, the authors have advised due to an error that occurred inadvertently at the time of figure assembly, Figure 3 on page 12925 is incorrect. The correct Figure 3 is shown below.

**Figure 3** Expression levels of the H<sup>+</sup>/K<sup>+</sup>-ATPase α- and β-subunit proteins in representative normal laryngeal tissues and laryngeal carcinomas as revealed by Western blotting.

**Notes:** \**p* < 0.05; \*\**p* < 0.01.

**Abbreviations:** N, normal tissues; P, paracarcinoma tissues; T, laryngeal carcinoma tissues.

The authors apologize for these errors and advise they do not affect the conclusion of the article.

OncoTargets and Therapy

Dovepress

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
