

Novel lncRNA LINC01614 Facilitates Bladder Cancer Proliferation, Migration and Invasion Through the miR-217/RUNX2/Wnt/ β -Catenin Axis [Retraction]

Wang Z, Yan H, Cheng D, et al. *Cancer Manag Res.* 2021;13:8387–8397.

At the authors request, the Editor and Publisher of *Cancer Management and Research* wish to retract the published article. The authors have informed the journal that they have concerns regarding the reliability of the published results. In addition, they are unable to provide adequate original data for their study. The authors requested to retract the article and the Editor has agreed with this.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as “Retracted”.

Publish your work in this journal

Cancer Management and Research is an international, peer-reviewed open access journal focusing on cancer research and the optimal use of preventative and integrated treatment interventions to achieve improved outcomes, enhanced survival and quality of life for the cancer patient. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
