## RETRACTION

## Effects of Green Synthesised Silver Nanoparticles (ST06-AgNPs) Using Curcumin Derivative (ST06) on Human Cervical Cancer Cells (HeLa) in vitro and EAC Tumor Bearing Mice Models [Retraction]

Murugesan K, Koroth J, Srinivasan PP, et al. Int J Nanomedicine. 2019;14:5257-5270.

The Editor and Publisher of *International Journal of Nanomedicine* wish to retract the published article. Concerns were raised regarding the alleged duplication of H&E images in Figure 8. Specifically,

• Figure 8, ST06, Tumor image appears to be partly duplicated with the Figure 8, ST06-AgNPs, Tumor image.

The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged duplication, nor were they able to provide original data that could adequately verify the findings. The Editor requested to retract the article and the authors agreed with this decision.

We have been informed in our decision-making by our policy on publishing ethics and integrity and the COPE guidelines on retractions.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

International Journal of Nanomedicine

## Publish your work in this journal

The International Journal of Nanomedicine is an international, peer-reviewed journal focusing on the application of nanotechnology in diagnostics, therapeutics, and drug delivery systems throughout the biomedical field. This journal is indexed on PubMed Central, MedLine, CAS, SciSearch<sup>®</sup>, Current Contents<sup>®</sup>/Clinical Medicine, Journal Citation Reports/Science Edition, EMBase, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http:// www.dovepress.com/testimonials.php to read real quotes from published authors.
